

## LOCKSET & LOCK CASE PRODUCT RANGE CHANGE

To enhance clarity on our product offering, and to better meet customer needs, ASSA ABLOY is repositioning its 3 well known brands - UNION, Yale, and ESCO. This will ensure we have a clear offering for the professional contractors, a range for the demanding DIY market, as well as ensuring an affordable range of products is available for the South African home owner.

ASSA ABLOY would like to advise you that as part of this project, there will be a number of changes in our lockset and lock case range.

### Brand and product offering

UNION remains our premium lockset and lock case offering, with its well-known expert quality, reliability and durability. All Union locksets come with a 5 Year Warranty.

Yale will be available in blister pack as a high end retail offering, with a powder coated lock body, with a 5 year warranty. It will be available for contractors in a box, with a galvanised lock body, with specifications aligned to the old ESCO product range. This galvanised option will carry a 3 year warranty.

ESCO (Econo, Nutec and Natal) will be phased out, and will now change to offer a more affordable, quality range of products. As part of this repositioning, ESCO Nutec and Natal will be phased out, with the new ESCO lockset providing a galvanised 2 and 3 lever lock set and lock case. ESCO has been reintroduced in an exciting new pack design, and carries a 2 year warranty. The Nutec and Natal offerings will be replaced by a Yale option.

### Products impacted

On page 2 and 3 of this document, a list of all part numbers which will be phased out is provided, with recommendations of replacements where applicable.

The products will be phased out as of end September, so please place your orders for the last available products before 15 September 2017.

For any queries please call on 011-761-5000 and speak to Customer Services.
